PRIVATE SECTOR DEVELOPMENT

Transforming Myanmar's economy is being achieved through five pillars, namely legal and regulatory reforms, reform and restructure of state-owned enterprises, promotion of trade and investment, enabling access to finance and human capital. UMFCCI takes responsible positions on key national, economic, social and political issues facing the business community.

UMFCCI strongly supports investments and policies that are beneficial and responsible. UMFCCI also

prioritizes sustainable development and long term economic growth. UMFCCI encourages and advocates its members and the entire business community through monthly private sector development meetings to work hand in hand for the progress and development of our country.

TRAINING

Our training programmes help develop the skills and capacity of Myanmar Businesses making them ready for engaging in progressive partnership.

Our training programmes are designed to provide you with an effective and valuable addition to your skill-set and provide effective training experience delivered by high-calibre instructors. We are mainly focused on continuous improvement of our member's business skills and sustainable development of human resource in the country. Our training program is cost effective and affordable.

TRADE FAIRS AND EXHIBITIONS

UMFCCI provides support in the development of projects contributing towards the country's economy. UMFCCI organizes business meetings and establishes business contacts, organizes and supports the participation of local businesses at trade fairs and exhibitions, both International and Local.

UMFCCI participates in over a hundred international and local trade fairs annually, in order to open up opportunities for Myanmar exporters to meet directly with foreign buyers. Trade Fairs and Exhibitions enable Myanmar products and services to gain access to overseas markets.
